-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Response to Preliminary Amendment

1. Applicant's submittal of a preliminary amendment was received on July 13, 2005, wherein claims 1-12 were cancelled and new claims 13-24 were added.

Priority

2. Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.

Specification

3. The abstract of the disclosure does not commence on a separate sheet in accordance with 37 CFR 1.52(b)(4). A new abstract of the disclosure is required and must be presented on a separate sheet, apart from any other text.

Claim Rejections - 35 USC § 102

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Art Unit: 3618

5. **Claims 13-15 are rejected under 35 U.S.C. 102(e) as being anticipated by Takedomi et al. (US Patent 6,988,575 B2).** Takedomi et al. discloses a vehicular battery mounting structure comprising a floor panel (1); a seat (17) disposed above the floor panel; a battery pack (20) having a plurality of battery unit cells or battery modules in accordance with a performance of a vehicle (See Fig. 1), the battery pack being disposed between the floor panel and the seat so that the plurality of battery unit cells or battery modules are stacked in a longitudinal direction relative to the vehicle (See Fig. 1); **[claim 14]** wherein the seat is a seat that does not have a power seat function; and **[claim 15]** wherein the seat is a passenger seat or a rear seat.

Claim Rejections - 35 USC § 103

6. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

7. **Claim 24 is rejected under 35 U.S.C. 103(a) as being unpatentable over Takedomi et al. (US Patent 6,988,575 B2) in view of Examiner's Official Notice.** Takedomi et al. discloses the vehicular battery mounting structure as set forth above, but does not disclose wherein the battery pack is formed by a lithium ion battery or a nickel metal hydride battery. Examiner takes Official Notice that is notoriously old and well known that lithium ion and nickel metal hydride batteries have been used as a storage device on hybrid electric vehicles. It would have been obvious to a person of ordinary skill in this art to select one of these type batteries in order to store electrical power for the hybrid vehicle.

Art Unit: 3618

Allowable Subject Matter

8. Claims 16-23 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Conclusion

9. The prior art made of record in the accompanying PTO Form 892 and not relied upon is considered pertinent to applicant's disclosure.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to J. Allen Shriver whose telephone number is (571) 272-6698. The examiner can normally be reached on Monday, Wednesday and Thursday 6:30 am-6:00 pm and Tuesday 6:30 am-11:00 am.
